

I am 100% against the proposal to allow media conglomerates to own more and more media outlets. Your duty is to vote in such a way that benefits the public---that promotes and protects our rights and privledges. Our news and entertainment industries already are feeding us homogenized pabulum. Our society DESPERATELY needs independent, local programming. I do not think that increasing the number of outlets a corporation can own is in the best interests of the public. THESE ARE PUBLIC AIRWAVES.
